

## TOURNAMENT WEATHER INFORMATION

Coaches,

The Tournament Staff is monitoring weather conditions and have prepared contingency plans for the tournament games. To reiterate our previous email, all teams should expect to play regardless of field or weather conditions. There are two general exceptions to this notion. First, safety - the safety of our players, parents, and volunteers is of the highest importance to the Broken Arrow Soccer Club. Secondly field closure due to fields not being playable due to flooding conditions.

The [BASC Website](#) has a "Field Status" box showing any field closures at ISSC. If the Tournament Staff deems it necessary to reschedule or cancel games this evening, please see the following contingency plans:

- If all Friday night games require cancellation due to severe flooding or other weather related issues, BASC has a backup schedule ready to go! \*\*We will notify coaches that are affected with a revised schedule.
- Friday night games that don't make it through the first half before being stopped due to field conditions will be rescheduled to begin anew on Saturday at the first available opportunity. \*\*We will notify coaches that are affected with a revised schedule.
- Games that kick off the second half before being halted, for whatever reason, will be considered complete.
- For Friday night games, a lightning delay of greater than 50 minutes will result in the game being rescheduled for Saturday. \*\*We will notify all coaches that are affected.
- Saturday or Sunday games with lightning delay or greater than 50 minutes will be handled per the [INCLEMENT WEATHER POLICY](#) published. \*\*We will notify all coaches that are affected.
- For Friday, Saturday, or Sunday games, a lightning delay of less than 50 minutes will result in a cascaded delay for all subsequent games. \*\*We will notify all coaches that are affected.
- BASC will be prepared to spread field dry and squeegee goal boxes. If we can make the fields playable we will. The focus will be on goal boxes, and then other standing water. We will need assistance from all BASC members with this important task! All hands on deck.
- BASC may need to move games to alternate fields which may be in better condition. \*\*We will notify all coaches that are affected.

**Please plan to play** but check your emails for any changes to your schedule throughout the weekend. The BASC Tournament Staff is doing everything in our power to make this tournament run as smoothly as possible through our Oklahoma weather issues.

Thank you for coming to our tournament & we look forward to seeing lots of talented players playing the game we all love this weekend!
